

Projects

A short overview of commissions, exhibitions and events

From bookplates to banners to buses, Narelle's arts practice has included a number of significant projects - in addition to, and often springing from, the creation of text and illustrations for her picture books.

Public artwork which has been commissioned in conjunction with Narelle's creation of picture book illustrations, or as a result of her arts teaching practice, include the interior design of the Children's Lounge of the Brisbane Square Library (2007), adornment of a Brisbane City Council city loop bus (2008) and bronze plaques in the Cleveland Art Walk (1997).

Narelle has been included as one of 11 Brisbane-based picture book illustrators in the Brillustration Exhibition of 12 banners commissioned by the Museum of Brisbane (2007) and is one of 5 Queensland-based author/illustrators featured on the DVD 'Undercover Stories' produced by Book Links (Qld) Inc. with the support of Arts Queensland.

Specific artwork commissions include the production of bookplates for Dr. William Ross Johnston, renowned author and former Associate Professor and Head of Department of History at the University of Queensland to accompany a donation to Duke University, USA.
